(f):** At least a quorum of the Committee must be present together physically at the meeting to invoke this provision. The provision is limited to “just cause” and “emergency” circumstances, as follows:

“Just cause” is only: (1) a childcare or caregiving need of a child, parent, grandparent, grandchild, sibling, spouse or domestic partner that requires them to participate remotely; (2) a contagious illness that prevents a member from attending in person; (3) a need related to a physical or mental disability, as defined; or (4) travel while on official business of MCERA or another state or local agency. A Board member invoking “just cause” must provide a general description of the circumstances relating to their need to appear remotely at a given meeting, and it may not be invoked by a Board member for more than two meetings in a calendar year.

“Emergency circumstances” is only: “a physical or family medical emergency that prevents a member from attending in person.” The Board member invoking this provision must provide a general description of the basis for the request, which shall not require the member to disclose personal medical information. Unlike with “just cause,” the Board must by majority vote affirm that an “emergency circumstance” situation exists.

## **B. NEW BUSINESS**

### **1. Proxy Voting**

#### **a. Proxy Voting Reports**

Proxy voting records of public equity managers for December 31, 2023

Retirement Administrator Jeff Wickman presented proxy voting records of MCERA equity managers for the third and fourth quarters of 2023. Trustee Silberstein expressed appreciation to staff for providing the proxy reports. He observed that Fidelity Institutional Asset Management (FIAM) proxy votes reflect the changes requested by the Committee to have the information presented in alphabetical order by company with the reasons for votes against management.

#### **b. Proxy Voting Reports – Executive Compensation**

Review and discuss the ISS executive compensation proxy voting reports for the Dimensional Fund Advisors and State Street Global Advisors portfolios

Mr. Wickman presented proxy reports on executive compensation and related statistics for the Dimensional Fund Advisors (DFA) and State Street Global Advisors (SSGA) ISS accounts for the 4<sup>th</sup> quarter of 2023 and the 1<sup>st</sup> quarter of 2024. Chair Cooper thanked staff for the comprehensive proxy reporting. Trustee Silberstein observed that an important part of corporate governance is that the majority of directors are independent of the company. He pointed out that MCERA's new policy on Say on Pay with ISS is to vote against CEO compensation packages that are more than 100 times the pay of the median worker.

Mr. Wickman highlighted the ISS summary report on Say on Pay proxy votes that shows since the new policy went into place, MCERA voted no approximately 54% of the time. Trustee Silberstein noted MCERA voted no on 76% of DFA Say on Pay matters. For State Street Say on Pay matters, MCERA voted no 78% of the time. He said examples of no votes included CEO's receiving 1,000 or 2,000 times more than the median worker.

Trustee Gladstern noted there were interesting shareholder resolutions. Trustee Silberstein added that MCERA voted no on 4 out of 9 shareholder resolutions at Microsoft because of the belief management was already addressing the issues. Trustee Silberstein pointed out there are more shareholder resolutions than in the past.

### **2. Governance Risk Report – Institutional Shareholder Services (ISS) – Jack Ferdon**

Review and discuss the ISS quarterly Risk Assessment Report

For consideration at October Committee meeting

Jack Ferdon, Senior Associate in Client Services with Institutional Shareholder Services, discussed the Governance Risk Report for the fourth quarter of 2023. Mr. Ferdon observed two companies on the report, Oracle and Palo Alto Networks, received a poor governance score as a result of compensation and governance issues. He said the most interesting shareholder proposal during the quarter was a request that Microsoft provide information related to the impacts of artificial intelligence. In one proxy contest MCERA voted with the dissident who did not succeed. Mr. Wickman presented a list identifying which of MCERA investment managers had holdings in the companies on the ISS Governance Risk report for Q4 2023.

Turning to the Governance Risk Report for the first quarter of 2024, Mr. Ferdon highlighted TransDigm Group as rating poorly due to governance issues. The Management Summary shows there were instances where MCERA did not vote its proxies, which was due to trade restrictions that would have been triggered so the ISS system automatically suspended the voting of those proxies. Mr. Ferdon noted that a shareholder proposal asking about the impact of artificial intelligence on Apple received 37% of votes which is a high percentage for a shareholder proposal.

3. Existing Policies – Standard Review with Proposed Updates

a. Trustee and Staff Travel Expense Policy (ACTION)

Consider possible recommendation to Board on updates to policy

Mr. Wickman presented updates to the Trustee and Staff Travel Expense Policy clarifying that all SACRS and CalAPRS educational programs are excluded from those educational programs with overnight lodging that are limited to no more than three per year. Also, the gift limit in the policy was increased to match the current state guideline of \$590.

It was M/S Jones/Silberstein to recommend that the Board approve updates to the Trustee and Staff Travel Expense Policy as submitted. The motion passed by a vote of 4-0 as follows:

AYES: Cooper, Gladstern, Jones, Silberstein  
NOES: None

ABSENT: Poole

b. Policy Regarding Adoption of Actuarial Economic Assumptions (ACTION)

Consider possible recommendation to Board on updates to policy

The update to the Policy Regarding Adoption of Actuarial Economic Assumptions changes the effective date of economic assumptions to the June 30, 2023 Actuarial Valuation to match the most recent completed actuarial valuation adopted by the Board in February 2024.

It was M/S Jones/Silberstein to recommend that the Board approve the update to the Policy Regarding Adoption of Actuarial Economic Assumptions as submitted. The motion passed by a vote of 4-0 as follows:

Updates to the Actuarial Funding Policy reduce amortization periods by one year and update the calendar year from 2022 to 2023.

AYES: Cooper, Gladstern, Jones, Silberstein  
NOES: None  
ABSTAIN: None  
ABSENT: Poole

e. Class Action Securities Litigation Policy (ACTION)

Consider possible recommendation to Board on updates to policy

Mr. Wickman said updates to the Class Action Securities Litigation Policy align the policy with existing practice which is to report to the Board only those securities litigations that MCERA is taking an active role in. Trustee Silberstein requested that the policy be amended to require that securities litigation settlement payments received by MCERA be reported to the Board on a quarterly basis.

It was M/S Jones/Silberstein to recommend that the Board approve updates to the Class Action Securities Litigation Policy as amended per the discussion above. The motion passed by a vote of 4-0 as follows:

AYES: Cooper, Gladstern, Jones, Silberstein

f. Policy Regarding Actuarial Equivalence Determinations for Modified Retirement and Survivor Allowances (ACTION)

It was M/S Jones/Silberstein to recommend that the Board approve updates to the Policy Regarding Actuarial Equivalence Determinations for Modified Retirement and Survivor Allowances as submitted. The motion passed by a vote of 4-0 as follows:

Applied Optoelectronics, Inc.	06/06/2024	Management	6	Amend Omnibus Stock Plan	For	Against	Against	Against	A vote AGAINST this proposal is warranted because: * The company's potential Voting Power Dilution (VPD) for all incentive plans of 15.43 percent is excessive. * The equity granted to the named executives during the last fiscal year exceeds 15 percent of total awards. * The company's three-year average burn rate is excessive.

BancFirst Corporation	05/23/2024	Management	18	Amend Deferred Compensation Plan	For	For	For	For	A vote FOR this proposal is warranted. Although the plan reserves additional shares for issuance, the proposal does not result in voting power dilution given that grants of common shares would be in lieu of director fees on a value for value basis. Paying directors a portion of their compensation in stock would align their interest with those of shareholders.

WITHHOLD votes for Brian Bailey are also warranted for serving as a non-independent member of a key board committee. WITHHOLD votes for Brian Bailey and Lukas Roush are warranted (i) given the board's failure to remove, or subject to a reasonable sunset requirement, the dual-class capital structure, the supermajority vote requirement to enact certain changes to the governing documents, and the classified board, each of which adversely impacts shareholder rights; and (ii) for lack of diversity on the board. WITHHOLD votes for Compensation Committee members Brian Bailey and Lukas Roush are warranted as the company recently materially amended the CEO's employment agreement, which provides for problematic modified-single trigger cash severance.

WITHHOLD votes for non-independent director nominees Dean Allara and Adam O'Farrell are further warranted due to the company's lack of formal compensation and nominating committees. WITHHOLD votes for Audit Committee member Chad Leat are also warranted due to significant share pledging by executive directors and the apparent absence of a policy to limit pledging and cause existing pledges to be unwound. In the absence of governance and compensation committees, WITHHOLD votes for Dean Allara, Chad Leat, and Adam O'Farrell are warranted: * for failure to remove, or subject to subject to a sunset requirement, the classified board and the multiclass capital structure, each of which adversely impacts shareholder rights; and * In the absence of a say-on-pay proposal, for concerns with respect to the company's pay programs. Ceva, Inc.	05/21/2024	Management	8	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST the proposal is warranted. Though the annual bonus appears strongly performance based, there are a number of concerns regarding equity grants in FY23. Though a majority of the LTI grant was in performance equity, a portion of the grant measured performance over a single year and merely targets median performance. Though longer-term equity targets appear rigorous, the award will vest if any number of metrics meet target instead of each metric comprising a certain portion of the award. There also exist magnitude concerns, as the new CEO received a relatively large sign-on RSU grant and equity grant for the year in review.

ChampionX Corporation	06/18/2024	Management	1	Approve Merger Agreement	For	For	For	For	A vote FOR this transaction is warranted. Although the merger consideration represents a premium to the unaffected price, the value of the consideration has decreased in proportion to the decrease in SLB shares. However, the exchange ratio appears reasonable compared to historical trading ranges of CHX and SLB shares, and the strategic rationale appears sound, given the expected cost savings and improved financial condition of the combined company. Finally, the equity form of consideration allows shareholders to participate in the potential upside of the combined company.
ChampionX Corporation	06/18/2024	Management	2	Advisory Vote on Golden Parachutes	For	For	For	For	A vote FOR this proposal is warranted. Although certain performance shares will be deemed earned above target and a modest value in SARs will be cashed out, the vast majority of NEOs' unvested equity will be assumed and vest only upon a qualifying termination. In addition, cash severance is double trigger and reasonably based, and no excise tax gross-ups are payable.
ChampionX Corporation	06/18/2024	Management	3	Adjourn Meeting	For	For	For	For	A vote FOR this proposal is warranted, as the underlying transaction (Item 1) merits support.

Chico's FAS, Inc.	01/03/2024	Management	1	Approve Merger Agreement	For	For	For	For	The board's decision to forgo an auction process is a cause for concern, since investors lack market-based evidence that the deal in fact represents the best available alternative. These concerns are somewhat mitigated by the go-shop following the transaction announcement, though no competing proposals were presented to the company. Despite these concerns, shareholders are receiving a sizeable premium, there is a potential downside risk of non-approval, and the cash consideration provides liquidity and certainty of value for shareholders. As such, support FOR the proposed transaction is warranted.

Enstar Group Limited	06/06/2024	Management	13	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	The committee demonstrated adequate responsiveness to last year's low say-on-pay vote result. However, a vote AGAINST this proposal is warranted due to an unmitigated pay-for-performance misalignment. Annual LTI awards and the president's front-loaded award are majority based on clearly disclosed, multi-year goals. However, the majority of STI weighting is based on metrics for which quantified, pre-set goals are not disclosed, and large base salaries contribute to large STI opportunities and payouts for 2023. Additionally, three NEOs received special, off-cycle equity awards significantly larger than their annual LTI grant. The special awards lack performance-vesting criteria and were granted relatively close to prior special awards to the same NEOs. Concerns are also raised with regards to the CEO's excessive total perquisite compensation, the single-trigger change-in-control provision in legacy agreements, and the auto-accelerated vesting of equity awards upon a change-in-control event.

Equity Bancshares, Inc.	04/23/2024	Management	5	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. The regular STI and LTI programs are sufficiently performance-based. However, there are concerns regarding STI goal rigor and the lack of majority performance-based CEO equity awards after accounting for meaningful supplemental time-vesting equity grants contemplated under the employment agreement. Additionally, the company recently incorporated a SERP as a new element of the pay program. The incorporation of such a non-performance-based pay element is problematic and unusual at a time when many companies have closed or frozen such plans.
Equity Bancshares, Inc.	04/23/2024	Management	6	Amend Omnibus Stock Plan	For	Against	Against	Against	A vote AGAINST this proposal is warranted because: * The plan allows for company loans to officers for the exercise of awards. * The equity granted to the named executives during the last fiscal year exceeds 15 percent of total awards. * The company's three-year average burn rate is excessive.

Essent Group Ltd.	05/01/2024	Management	5	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted because the pay-for-performance misalignment is not mitigated at this time. While the CEO's short- and long-term incentives are primarily performance-based, significant concerns are raised under the short-term incentive program. Half of cash incentives for NEOs other than the CEO is based on individual performance, the performance target for a significant metric was set significantly below prior year actual performance without a sufficient rationale, and a discretionary bonus was paid to the CEO on top of his near maximum payout.

Etsy, Inc.	06/13/2024	Management	4	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. While the annual incentive was based primarily on financial metrics, and the committee utilized discretion to reduce annual incentive payouts, there are noted design, disclosure, and magnitude concerns in the long-term incentive program. The CEO's total equity award value was large, driving relatively large total pay for the year in review, on the backdrop of TSR underperformance. Concerns surrounding these awards are magnified, as the majority of performance awards utilize a relatively short two-year period and forward-looking goals are not disclosed. Moreover, the majority of equity awards granted to NEOs other than the CEO were primarily time-based. Lastly, the company provided a tax gross-up payment for an executive's perquisite.

Farmers & Merchants Bancorp, Inc.	04/29/2024	Management	14	Advisory Vote to Ratify Named Executive Officers' Compensation	For	For	Against	Against	A vote AGAINST this proposal is warranted because: * The company did not condition vesting of long-term awards on achievement of performance goals for awards granted in the most recent fiscal year. * The company maintains an excessive severance provision in a legacy agreement. * Equity awards allow for auto-accelerated vesting upon a change-in-control event. * The company lacks risk-mitigating provisions such as a clawback policy, stock ownership guidelines or holding period requirements for executives.

Fastly, Inc.	06/12/2024	Management	5	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. The compensation committee demonstrated only limited responsiveness to last year's failed say-on-pay vote. While certain improvements were made, concerns regarding the overlapping metrics and performance period between the STI and LTI programs were not meaningfully addressed. Further, a pay-for-performance misalignment exists for the year under consideration, and sufficient mitigating factors have not been identified. Certain positive factors exist, as equity awards were half performance-based and annual incentives were based on pre-set objective metrics. However, performance equity continued to utilize the same metrics, targets, and one-year performance period as the short-term incentive program, thereby awarding executives twice for the same performance. Further, a non-CEO NEO was awarded a large time-based equity grant, and his total compensation exceeded that of the CEO's.

A vote AGAINST governance committee members Christopher (Chris) Elliott and James (Jim) Bunch is warranted given the board's failure to remove, or subject to a sunset requirement, the supermajority vote requirement to enact certain changes to the governing documents and the classified board, each of which adversely impacts shareholder rights. A vote AGAINST nominating committee chair Christopher (Chris) Elliott is further warranted for lack of racial or ethnic diversity on the board.

Harley-Davidson, Inc.	05/16/2024	Management	10	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	The CEO pay ratio exceeds 100.A vote AGAINST this proposal is warranted because the company provided the CEO an inordinate amount of personal use of corporate aircraft perquisites. Additionally, the compensation committee was sufficiently responsive to shareholders' concerns after last year's relatively low say-on-pay vote. However, an unmitigated pay-for-performance misalignment exists for the third successive year. While long-term incentives will implement a three-year performance period beginning with FY24 awards, FY23 grants continued to use annual performance periods with limited disclosure of goals, and the CEO received entirely time-vesting equity awards. In addition, the CEO received a sizable supplemental annual bonus opportunity which was fully earned, with limited disclosure of how the committee determined the award's magnitude, goals, and total achievement.

Hingham Institution for Savings	04/25/2024	Management	7	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. There is a misalignment between pay and performance and sufficient mitigating factors could not be identified. The CEO and one NEO receive base salaries which are outsized, and executive compensation does not include any performance-based pay, resulting in pay packages which are entirely fixed, neither increasing or decreasing in line with company performance, and lacking in long-term focus. In addition, concerns are raised with respect to the single-trigger equity vesting acceleration upon a change-in-control, the lack of risk mitigating provisions, and the excessive severance provision in existing agreements with certain executives.

Nevertheless, the strategic rationale for this transaction appears compelling, providing significant cost savings from synergies, and the merger is expected to be accretive to EPS, with a reasonable 2.8 year earnback period, while the reduction in the exchange ratio appears reasonable in light of the company's ongoing financial underperformance.

Identiv, Inc.	06/28/2024	Management	1	Approve Sale of Company Assets	For	For	For	For	A vote FOR this proposal is warranted. The market reaction to the proposed transaction has been negative. However, the board rationale for the sale appears reasonable and the sale process was relatively thorough. Further, the company's largest shareholder has publicly supported the transaction and no other shareholders have expressed public opposition, somewhat mitigating concerns regarding negative market reaction.
Identiv, Inc.	06/28/2024	Management	2	Advisory Vote on Golden Parachutes	For	For	For	For	A vote FOR this proposal is warranted. Although the RSU grants that the CEO and other NEO will receive upon closing of the sale will be fully vested, they are the only single trigger payments that will be made to either executive in connection with the sale. Further, though severance payments are unlikely to be triggered by the sale according to the company, cash severance is double trigger and reasonably based, no excise tax gross-ups are payable, and equity acceleration is double trigger.
