Five9, Inc.	05/14/2024	Management	3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST the proposal is warranted. Although a pay-for-performance misalignment is mitigated for the year in review, the compensation committee was not fully responsive to shareholder concerns following a low say-on-pay vote result. In particular, shareholders noted concerns regarding one-time grants given to the CEO and other NEO grants in FY22, yet the compensation committee did not provide any safeguards or assurances regarding any potential future grants going forward, though it is noted that some positive changes were made to the annual pay programs in response to shareholder feedback.

Company Name	Meeting Date	Proponent	Proposal Sequence Number	Proposal Text	Management Recommendation	ISS Recommendation	Voting Policy Recommendation	Vote Instruction	Voting Policy Rationale
General Motors Company	06/04/2024	Management	14	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	The CEO pay ratio exceeds 100. A vote AGAINST this proposal is warranted. A pay-for-performance misalignment exists, and sufficient mitigating factors have not been identified for the year in review. Although short-term incentives were primarily based on financial metrics, target goals were set below the prior year's target and actual performance and the STI then paid out above target. Furthermore, while long-term incentives were primarily performance-based, forward-looking goals for two of three metrics were not disclosed and the number of shares underlying equity awards significantly increased again, creating a windfall opportunity. Concerns are also raised with regards to the inordinate amount of personal use of corporate aircraft, life insurance, and financial planning perquisites provided to the CEO.
General Motors Company	06/04/2024	Shareholder	15	Report on the Use of Child Labor in Connection with Electric Vehicles	Against	Against	For	For	A vote FOR this proposal is warranted, as additional information on the company's sourcing policies and practices would allow investors to better understand how the company is managing human rights-related risks in its supply chain.
General Motors Company	06/04/2024	Shareholder	16	Eliminate EV Targets from Incentive Compensation Programs	Against	Against	Against	Against	A vote AGAINST this proposal is warranted as the compensation committee is generally best positioned to determine the specific metrics utilized under the executive pay program. In addition, given the company's clearly disclosed strategy, the use of EV metrics appears reasonable at this time.
General Motors Company	06/04/2024	Shareholder	17	Report on the Company's Use of Deep-Sea Mined Minerals in its Production and Supply Chains	Against	Against	For	For	A vote FOR this resolution is warranted as shareholders would benefit from the requested report by providing them additional information on the risks associated with deep sea mining and enable them to better assess the company's management of related risks.
General Motors Company	06/04/2024	Shareholder	18	Report on Sustainability Risk in the Company's Supply Chain	Against	Against	For	For	A vote FOR this proposal is warranted, as further disclosure would provide additional information on the company's sustainability practices, particularly in its supply chains. In addition, the report would help shareholders assess the company's management of related risks, as well as adequately track progress.

Additionally, the compensation committee was sufficiently responsive to shareholders' concerns after last year's relatively low say-on-pay vote. However, an unmitigated pay-for-performance misalignment exists for the third successive year. While long-term incentives will implement a three-year performance period beginning with FY24 awards, FY23 grants continued to use annual performance periods with limited disclosure of goals, and the CEO received entirely time-vesting equity awards. In addition, the CEO received a sizable supplemental annual bonus opportunity which was fully earned, with limited disclosure of how the committee determined the award's magnitude, goals, and total

Hess Corporation	05/15/2024	Management	13	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST the proposal is warranted. A pay-for-performance misalignment exists and mitigating factors have not been identified. Annual incentives are primarily based on pre-set metric categories, while long-term incentives are primarily performance-based and utilized a multi-year performance period with disclosed forward-looking goals. However, significant concern is noted regarding the lowering of STI and LTI goals for awards made during the year in review and the committee's approval of a relatively large, new STI payout adjustment. Generally, most STI metric targets were set below performance in the prior year and metrics were generally achieved above-target. The committee also incorporated a new strategic modifier into the STI program in FY23 and approved a sizable increase to STI payouts. In addition, while the prior relative TSR metric targeted outperformance, the new relative CAGR metric effectively targets merely median performance.

Hess Corporation	05/28/2024	Management	1	Approve Merger Agreement	For	Abstain	Abstain	Abstain	Investors are presently unable to make an informed assessment of the likely timetable for the ROFR arbitration process. In addition, the current terms of the merger agreement and recent developments provide the buyer (CVX) and the potential interloper (XOM) with substantial optionality, while HES shareholders bear the risk of a potentially broken deal without any compensation. As such, shareholders are currently recommended to ABSTAIN on the merger agreement (Item 1), while continuing to support the adjournment proposal (Item 3), to allow more time for details on the arbitration process to emerge and for CVX to consider an incentive to compensate HES shareholders for a potential delay or deal break.
Hess Corporation	05/28/2024	Management	2	Advisory Vote on Golden Parachutes	For	Against	Against	Against	Although cash severance arrangements are reasonable and outstanding equity are subject to double-trigger vesting, there are significant concerns with assumptions for performance equity conversions and regarding excise tax gross-ups. The company will calculate PSU conversions assuming maximum performance level achievement, without compelling rationale disclosed. Moreover, the company estimates payments of two large excise-tax gross-ups, which is considered a problematic practice. In light of these concerns, a vote AGAINST this proposal is warranted.

State Street Global Advisors - Proxy Vote January through June 2024 - Compared with ISS and Voting Policy Recommendations

Company Name	Meeting Date	Proponent	Proposal Sequence Number	Proposal Text	Management Recommendation	ISS Recommendation	Voting Policy Recommendation	Vote Instruction	Voting Policy Rationale
JPMorgan Chase & Co.	05/21/2024	Shareholder	14	Require Independent Board Chair	Against	For	For	For	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.
JPMorgan Chase & Co.	05/21/2024	Shareholder	15	Report on Impacts of JPMC's Climate Transition Policies	Against	Against	Against	Against	A vote AGAINST this resolution is warranted as the company appears to provide sufficient disclosure around how it weighs the costs and benefits associated with its policies toward the energy transition.
JPMorgan Chase & Co.	05/21/2024	Shareholder	16	Report on Respecting Indigenous Peoples' Rights	Against	For	For	For	A vote FOR this proposal is warranted. The bank and its shareholders are likely to benefit from increased transparency regarding due diligence around Indigenous Peoples' rights in project-related financing and clients' activities, for existing and future business.
JPMorgan Chase & Co.	05/21/2024	Shareholder	17	Review Proxy Voting Record and Policies Related to Climate Change and Diversity	Against	Against	For	For	A vote FOR this proposal is warranted. The requested report would benefit shareholders by allowing them to assess the company's policies and proxy voting practices on diversity and climate change-related issues, as well as providing a better understanding of the company's policy positions on such topics. Additional information regarding the potential risks of misalignment between the company's proxy voting policies and practices as well as the company's strategies for addressing those issues would further complement the company's commitments.
JPMorgan Chase & Co.	05/21/2024	Shareholder	18	Commission Third Party Report on Due Diligence Process of Doing Business in Conflict Affected Areas	Against	Against	For	For	A vote FOR this proposal is warranted, as additional information regarding the processes the company uses to identify and assess human rights impacts in its operations and supply chain would allow shareholders to better gauge how the company is managing human rights related risks. Additionally, such a report would provide additional information to shareholders to evaluate how the company is evaluating and managing related operational risks that could potentially negatively affect shareholder value.
JPMorgan Chase & Co.	05/21/2024	Shareholder	19	Submit Severance Agreement to Shareholder Vote	Against	For	For	For	A vote FOR this proposal is warranted. Although the company does not currently maintain severance or golden parachute arrangements, the company also does not disclose a policy that future cash severance payments beyond market norms would require shareholder approval. The requested policy would therefore represent an enhancement to shareholders' interests.

Juniper Networks, Inc.	04/02/2024	Management	1	Approve Merger Agreement	For	For	For	For	Shareholders are receiving a meaningful premium to the unaffected date price and JNPR's 52-week high, there is a potential downside risk of non-approval, and the cash consideration provides shareholders with certainty of value. As such, support FOR the proposed transaction is warranted.
Juniper Networks, Inc.	04/02/2024	Management	2	Advisory Vote on Golden Parachutes	For	For	For	For	A vote FOR this proposal is warranted. Cash severance is double trigger and reasonably based, and no excise tax gross-ups are payable. Although a portion of the CEO's outstanding equity will automatically accelerate upon closing of the merger, a majority of the outstanding equity will only vest upon a qualifying termination.
Juniper Networks, Inc.	04/02/2024	Management	3	Amend Certificate of Incorporation to Reflect New Delaware Law Provisions Regarding Officer Exculpation	For	For	Against	Against	A vote AGAINST this proposal is warranted as such an expansion in exemption from liability would adversely impact officer's accountability in the event of a breach in fiduciary care, which may adversely impact shareholders' interests.

KeyCorp	05/09/2024	Shareholder	16	Require Independent Board Chair	Against	Against	For	For	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

Kilroy Realty Corporation	05/22/2024	Management	9	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	The committee demonstrated adequate responsiveness to last year's low vote results. There are concerns regarding STI structure and disclosure, and the LTI structure raises additional concerns. However, the quantitative pay-for-performance misalignment is mitigated for the year in review, in light of positive changes for 2024. Specifically, for 2024, the new CEO's compensation levels are significantly lower than Kilroy's levels for 2023, and the proxy discloses meaningful improvements to the STI program, though shareholders may expect additional pay program refinements going forward. However, a vote AGAINST this proposal is warranted, due to the sizable cash payment John Kilroy became entitled to in connection with his retirement in early 2024. The now-former CEO received a sizable cash payment of over \$16 million, which is akin to cash severance. Material cash payments made in connection with a retirement are not the market norm and are considered problematic. Furthermore, concerns are raised with respect to the large automobile- and life insurance-related perquisites provided to the CEO.

Laboratory Corporation of America Holdings	05/14/2024	Shareholder	13	Submit Severance Agreement (Change-in-Control) to Shareholder Vote	Against	Against	For	For	A vote FOR this proposal is warranted given that the request applies only to future severance arrangements, the current agreements will not be affected, the request offers flexibility as to when the board may seek shareholder approval of a new or renewed severance arrangement, such as at the next annual meeting, and it is positive for shareholders to have the ability to vote on severance amounts that exceed market norms.
Laboratory Corporation of America Holdings	05/14/2024	Shareholder	14	Report on Transport of Nonhuman Primates Within the U.S.	Against	Against	For	For	A vote FOR this resolution is warranted because shareholders would benefit from additional disclosure about steps the company is taking to mitigate risks related to animal welfare in its supply chain of non-human primates.

Lastly, concerns are raised regarding the structure of the annual incentive program, which is heavily reliant on committee discretion and lacks several shareholder-friendly disclosures.

There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chair to be an independent director.

Live Nation Entertainment, Inc.	06/13/2024	Management	13	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	The CEO pay ratio exceeds 100. A vote AGAINST the proposal is warranted. Following a failed say-on-pay vote result, the company did not make any substantial changes to the pay program in response to shareholder concerns. Additionally, one NEO received a massive one-time grant of similar structure to previous grants to other executives, which does not require sustained stock price outperformance in order to vest. While CEO pay and performance were largely aligned for the year in review, certain concerns are noted, including a relatively high base salary and target bonus opportunity for the CEO and one NEO, identical performance metrics in the STI and LTI for non-CEO NEOs, and an LTI grant based entirely on qualitative metrics for the CEO. Concerns are also raised with regards to the total amount of perquisite compensation for the CEO that is deemed excessive, consisting of personal use of corporate aircraft, security-related, and automobile perquisites. The company also lacks risk-mitigating provisions such as a clawback policy, stock ownership guidelines or holding period requirements for executives.

Northrop Grumman Corporation	05/15/2024	Shareholder	19	Require Independent Board Chair	Against	Against	For	For	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

Paycom Software, Inc.	04/29/2024	Management	5	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST the proposal is warranted because: * The company provided the CEO inordinate amounts of personal use of corporate aircraft perquisites and the total amount of perquisite compensation for the CEO is deemed excessive. * The compensation committee demonstrated sufficient responsiveness to last year's failed say-on-pay vote. However, though pay and performance were quantitatively aligned for the year in review, a qualitative analysis indicates significant structural concerns with the pay program. The annual bonus remains based on financial targets which appear rigorous, though a concern remains with regards to an unbalanced payout formula. Moreover, the company made a number of problematic changes to the LTI program, significantly increasing NEO grant values, decreasing the proportion of the equity grant based on performance-conditioned equity, and changing the performance metrics to a one-year performance period which mirror the metrics used in the annual bonus program.

PayPal Holdings, Inc.	05/22/2024	Shareholder	16	Amend Bylaw Regarding Stockholder Approval of Director Compensation	Against	Against	Against	Against	A vote AGAINST this proposal is warranted, as the proponent has not raised a compelling argument for adopting a novel and potentially disruptive binding bylaw amendment pertaining to director compensation. Furthermore, in the absence of director pay magnitude and structure concerns, this proposal seeks a requirement that is considered overly prescriptive.

Pure Storage, Inc.	06/12/2024	Management	5	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	Although incentive programs were primarily based on pre-set objective measures and the committee introduced a long-term equity award in FY24, there are significant concerns regarding pay decisions, program structure, and the magnitude of awards provided to NEOs. PSU awards utilize a relatively short one-year performance period, and concerns are magnified as the company made modifications to these awards, which resulted in a significant incremental fair value disclosure of more than \$11 million for the CEO. Furthermore, while the company introduced longer term performance-based awards that utilized milestone goals, it resulted in outsized equity award values to all NEOs. In addition, while the aggregate performance of corporate performance measures in the STI were achieved below target, some concerns are raised as NEOs received above-target payouts following the committee's assessment of individual performance. On balance of these factors, a vote AGAINST this proposal is warranted.

RenaissanceRe Holdings Ltd.	05/13/2024	Management	4	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted, due to an unmitigated pay-for-performance misalignment. The STI is predominantly based on quantified pre-set goals and half of annual LTI awards are performance-conditioned. However, the structure of the CEO's one-time award raises certain concerns, particularly given the additional pay opportunities provided. A large portion of the award lacks quantified, pre-set performance goals, and there are potential goal rigor concerns with the remaining portion. The STI program also raises certain goal rigor and disclosure concerns, which are heightened in the context of relatively large opportunities and an above-target payout. Lastly, the company provided the CEO an inordinate amount of aggregate perquisites.

There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

Southwest Airlines Co.	05/15/2024	Shareholder	18	Amend Clawback Policy	Against	For	For	For	A vote FOR this proposal is warranted as the addition of reputational or other financial harm as a recoupment scenario would expand the board's ability to recoup incentive pay and the increased disclosure requirements would also better serve shareholders' informational needs.
Southwest Airlines Co.	05/15/2024	Shareholder	19	Adopt Majority Vote Cast to Remove Directors With or Without Cause	Against	Against	Against	Against	A vote AGAINST this proposal is warranted as changing the vote standard for removal of directors with or without cause at a special meeting to a simple majority of votes cast could enable the removal of a director by a relatively small and unrepresentative portion of the shareholder base.
Southwestern Energy Company	06/18/2024	Management	1	Approve Merger Agreement	For	For	For	For	A vote FOR this proposal is warranted. The strategic rationale is compelling and cost synergies are expected, and shareholders will be able to participate in the upside potential via the all-stock consideration. Spotify Technology SA	04/17/2024	Management	4	Approve Discharge of Directors	For	For	For	For	A cautionary vote FOR this item is warranted given the lack of any specific concern with the board's actions over the past year. However, cautionary support is warranted as the company has failed to demonstrate good stewardship by failing to submit the remuneration to a shareholder vote. Despite not being formally required due to the company's cross market status, both in the US and Luxembourg companies are required to offer shareholders a say-on-pay.
Spotify Technology SA	04/17/2024	Management	5	Elect Daniel Ek as A Director	For	Against	Against	Against	Votes AGAINST non-independent director nominees Daniel Ek, Martin Lorentzon, Barry McCarthy and Shishir Mehrotra are warranted due to the company's lack of a formal nominating committee. Target Corporation	06/12/2024	Shareholder	15	Require Independent Board Chair	Against	Against	For	For	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote FOR this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

Tesla, Inc.	06/13/2024	Management	1	Elect Director James Murdoch	For	Against	Against	Against	Votes AGAINST non-independent nominee Kimbal Musk are warranted for lack of a majority independent board. Tesla, Inc.	06/13/2024	Management	2	Elect Director Kimbal Musk	For	For	Against	Against	Votes AGAINST non-independent nominee Kimbal Musk are warranted for lack of a majority independent board. Tesla, Inc.	06/13/2024	Management	3	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. While most NEOs received modest or no compensation for FY23, one executive was granted an outsized, time-based stock option award upon his promotion, the magnitude and design for which are not adequately explained. The grant does not require the achievement of pre-set performance criteria in order to vest and the value is considered to be excessive.
Tesla, Inc.	06/13/2024	Management	4	Change State of Incorporation from Delaware to Texas	For	For	For	For	A vote FOR this proposal is warranted, with caution. The process undertaken by the board to reach a decision to reincorporate does leave something to be desired, and there is some acknowledged risk given that Texas business courts are new and have no robust body of legal case law precedents or track record. However, while the board could have provided for a more definitive improvement to the rights of shareholders in conjunction with the proposed reincorporation, it is overall not readily apparent that the rights of shareholders would be materially harmed as a result of the proposed reincorporation.

Tesla, Inc.	06/13/2024	Management	5	Ratify Performance Based Stock Options to Elon Musk	For	Against	Against	Against	A vote AGAINST this proposal is considered warranted. In re-ratifying the 2018 performance option grant, shareholders have been given a unique opportunity to opine on a granted pay package for a second time, with the full benefit of hindsight in determining if the award was closely aligned with shareholders' interests and if it accomplished the goals the board set out to achieve. Some investors may find the board's argument compelling, that it would be unfair for CEO Musk not to receive the full award, which was previously approved by shareholders, and after achieving the high performance hurdles. However, the concerns raised, both back in 2018 and in the interim, have not been sufficiently mitigated, particularly given that the board has effectively only offered shareholders an "all or nothing" option in this vote. Although the structure of the grant's performance hurdles arguably contributed to, as well as reflect, the company's significant financial growth during the performance period, the total award value remains excessive, even given the company's success. In addition, the grant, in many ways, failed to achieve the board's other original objectives of focusing CEO Musk on the interests of Tesla shareholders, as opposed to other business endeavors, and aligning his financial interests more closely with those of Tesla stockholders. Lastly, there are go-forward concerns that remain unaddressed, including a lack of clarity on the board's plan for Musk's future compensation program and the potential for significant economic dilution.

Tesla, Inc.	06/13/2024	Shareholder	8	Adopt Simple Majority Vote	Against	For	For	For	A vote FOR this proposal is warranted given that elimination of the supermajority vote requirement would enhance shareholder rights.
Tesla, Inc.	06/13/2024	Shareholder	9	Report on Harassment and Discrimination Prevention Efforts	Against	For	For	For	A vote FOR this resolution is warranted, as the company has faced recent attention for allegations of harassment and discrimination in the workplace, and increased transparency would help shareholders assess how the company is managing associated risks.
Tesla, Inc.	06/13/2024	Shareholder	10	Adopt a Non-Interference Policy Respecting Freedom of Association	Against	For	For	For	A vote FOR this proposal is warranted. In light of the numerous controversies around the topic, and the high profile and increasingly contentious nature of the issue, additional clarity regarding the company's freedom of association policies would better position shareholders to evaluate the company's position.

Annual incentives are primarily based on pre-set objective metrics, and equity awards are half performance-conditioned with performance measured over a multi-year period. However, CEO pay increased by 25 percent year-over-year, without specific rationale. This included a significant increase in the target opportunity of the CEO's equity awards, contributing to the misalignment between pay and performance for the year in review. Further, while closing cycle goals and actual results are disclosed, forward-looking goals for PSUs are not provided.

UDR, Inc.	05/23/2024	Management	11	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	The CEO pay ratio exceeds 100.A vote AGAINST this proposal is warranted due to an unmitigated pay-for-performance misalignment. This marks the first time in several years in which a quantitative pay-for-performance misalignment has been identified at the company. Although pay programs were primarily determined by pre-set, objective metrics, there are structural and disclosure concerns identified under the STI and LTI. Transparency into certain STI metrics is limited and disclosure of the individual performance component is lacking. Additionally, while the LTI is entirely performance-based, the absolute FFO metric, performance period, and corresponding goals overlap with the STI program's FFO metric, which provides multiple payouts for the same performance outcome. The remaining LTI goals are relative and generally do not target outperformance. Lastly, the CEO's target STI opportunity was increased and is relatively large, and his target LTI opportunity increased amid sustained lagging TSR performance.

Ultragenyx Pharmaceutical Inc.	06/18/2024	Management	6	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A pay-for-performance misalignment is underscored by incentive program disclosure and structure concerns. The company did not clearly disclose performance targets for certain short- and long-term incentives, which impedes shareholders' ability to assess the programs. For NEOs other than the CEO, equity awards were majority time-based, and changes to the bonus structure reduced emphasis on the objective performance component. There are also concerns regarding the size of the CEO's LTI awards, which have resulted in relatively large total pay. In light of these factors, a vote AGAINST this proposal is warranted.

Universal Display Corporation	06/20/2024	Management	11	Advisory Vote to Ratify Named Executive Officers' Compensation	For	Against	Against	Against	A vote AGAINST this proposal is warranted. Pay programs were primarily performance-based with disclosed STI goals and PSUs utilize a multi-year performance period. However, the maximum goal for the most heavily-weighted STI metric was set below the prior year's actual performance without a corresponding pay reduction or rationale for the specific goal-setting, and the metric was achieved above target. Additionally, the proxy does not disclose any forward-looking LTI goals, the maximum PSU vesting opportunity is high and the CEO's equity grant value is relatively large, particularly in the context of negative three-year TSR. Lastly, the company maintains legacy agreements that contain an excise tax gross-up change-in-control provision.
Universal Display Corporation	06/20/2024	Management	12	Ratify KPMG LLP as Auditors	For	For	Against	Against	A vote AGAINST this item is warranted because: * the non-auditing consulting fees represent more than 25 percent of total fees paid; and * the auditor's tenure at the company exceeds seven years.

Universal Health Services, Inc.	05/15/2024	Management	2	Amend Nonqualified Employee Stock Purchase Plan	For	For	For	For	A vote FOR this proposal is warranted given that: * the purchase price is reasonable; * the plan is broad-based; and * there are limits on employee contributions.
